## Asante Named to Truven's 15 Top for Third Straight Year

For the third consecutive year, Asante has been named a 15 Top Health System by Truven Health Analytics, out of 436 health systems in the nation. Asante is also the only health system in Oregon or Washington to achieve the outstanding recognition.

The honor is a direct result of the outstanding efforts that Asante's caregivers, physicians, employees and volunteers make each day. The award recognizes an organizational commitment to exceptional care, clinical excellence and to the communities Asante serves.

Truven analyzes the clinical quality and efficiency of health systems across the country to identify the top 15. The list recognizes the top five systems in three categories: small, medium, and large based on annual operating expenses. With an operating budget of

approximately \$640 million, Asante is ranked among the top five of the small category.

Based on Truven's results, top hospitals outperformed their peers from around the nation by saving more lives and causing fewer complications; following industry-recommended standards of care more closely; making fewer patient safety errors; and scoring better on overall patient satisfaction.

The Truven 15 Top Health System 2015 logo will be seen in future promotional materials and advertising. Additionally, Asante will hold celebrations in June to recognize the achievement and the efforts of staff members. Details will be announced in the coming weeks.
